Editorial Staff

BOARD OF TRUSTEES

ROBERT V. FLEMING
President and Chairman of the Board, Riggs National Bank

WALTER S. GIFFORD
President American Telephone and Telegraph Co.

DAVID FAIRCHILD
Special Agricultural Explorer, U. S. Department of Agriculture

C. HART MERRIAM
Member National Academy of Sciences

LYMAN J. BRIGGS
Director National Bureau of Standards

GEORGE R. PUTNAM
Commissioner of Lighthouses, Retired

THEODORE W. NOYES
Editor of The Evening Star

GEORGE W. HUTCHISON
Secretary National Geographic Society

CHARLES EVANS HUGHES
Chief Justice of the United States

WILLIAM V. PRATT
Rear Admiral U. S. Navy, Retired

RAYMOND S. PATTON
Rear Admiral, Director, U. S. Coast and Geodetic Survey

ALEXANDER WETMORE
Assistant Secretary, Smithsonian Institution

GILBERT GROSVENOR
Editor of National Geographic Magazine

J. HOWARD GORE
Prof. Emeritus Mathematics, The George Washington University

FREDERICK V. COVILLE
Botanist, U. S. Department of Agriculture

ELISHA HANSON
Lawyer and Naturalist

JOHN J. PERSHING
General of the Armies of the United States

GEORGE OTIS SMITH
Formerly Director U. S. Geological Survey

O. H. TITTMANN
Formerly Superintendent U. S. Coast and Geodetic Survey

JOHN OLIVER LA GORCE
Associate Editor of the National Geographic Magazine

CHARLES G. DAWES
Formerly Vice-President of the United States

GEORGE SHIRAS, 3D
Formerly Member U. S. Congress, Faunal Naturalist and Wild-Game Photographer

OSCAR WESTOVER
Major General, Chief, U. S. Army Air Corps

CHARLES F. KETTERING
President, General Motors Research Corporation

ORGANIZED FOR "THE INCREASE AND DIFFUSION OF GEOGRAPHIC KNOWLEDGE"

To carry out the purposes for which it was founded forty-nine years ago, the National Geographic Society publishes THE NATIONAL GEOGRAPHIC MAGAZINE monthly. All receipts are invested in The Magazine itself or expended directly to promote geographic knowledge.

Articles and photographs are desired. For material which The Magazine can use, generous remuneration is made. Contributions should be accompanied by addressed return envelope and postage.

Immediately after the terrific eruption of the world's largest crater, Mt. Katmai, in Alaska, a National Geographic Society expedition was sent to make observations of this remarkable phenomenon. Four expeditions have followed and the extraordinary scientific data resulting given to the world. In this vicinity an eighth wonder of the world was discovered and explored—"The Valley of Ten Thousand Smokes," a vast area of steaming, spouting fissures. As a result of The Society's discoveries this area has been created a National Monument by proclamation of the President of the United States.

The Society coöperated with Dr. William Beebe in a deep-sea exploration of underseas life off Bermuda, during which a world record depth of 3,028 feet was attained August 15, 1934, enabling observations of hitherto unknown submarine creatures.

The Society also had the honor of subscribing a substantial sum to the expedition of Admiral Peary, who discovered the North Pole, and contributed $100,000 to Admiral Byrd's Antarctic Expeditions.

The Society granted $25,000, and in addition $75,000 was given by individual members, to the Government when the congressional appropriation for the purpose was insufficient, and the finest of the giant sequoia trees in the Giant Forest of Sequoia National Park of California were thereby saved for the American people.

The Society's notable expeditions to New Mexico have pushed back the historic horizons of the southwestern United States to a period nearly eight centuries before Columbus crossed the Atlantic. By dating the ruins of the vast communal dwellings in that region, The Society's researches have solved secrets that have puzzled historians for three hundred years. The Society is sponsoring an ornithological survey of Venezuela.

On November 11, 1935, in a flight sponsored jointly by the National Geographic Society and the U. S. Army Air Corps, the world's largest balloon, *Explorer II*, ascended to an officially recognized altitude record of 72,395 feet. Capt. Albert W. Stevens and Capt. Orvil A. Anderson took aloft in the gondola nearly a ton of scientific instruments, and obtained results of extraordinary value.
